

المادة: تفاضل متقدم

المرحلة: الثانية

عدد الساعات: 5 ساعات

عدد الوحدات: 8 وحدات

النوع	المفردات الدراسية	النوع
	Polar coordinates	1
	Graphs in polar coordinates	2
	Area inside curves	3
	Length of curves	4
	3D coordinates, vector space	5
	Line equation, plane equation	6
	Problems	7
	Functions of several variables, Limits	8
	Partial derivative, total derivative, chain rule	9
	Directional derivative, harmonic functions	10
	Gradient, divergence, curl	11
	Tangent plane, normal line	12
	problems	13
	Maxima, minima and saddle points	14
	Lagrange multiplier method	15
	problems	16
	Double integral	17
	Reversing the order of double integral	18
	Triple integral	19
	Problems	20
	Line integral	21
	Surface integral	22
	Green theorem	23
	Divergence theorem	24
	Stocks theorem	25
	Sequences	26
	Series	27
	Tests of convergence	28
	Power series	29
	Taylor series	30
