

ت	المفردات الدراسية	عدد الأسابيع
1	Binary operations	
2	Semi group ,monoid,group	
3	Examples of groups	
4	Theorems about the groups	
5	Symmetric groups	
6	Special cases of groups	
7	Subgroups	
8	Theorems about subgroups	
9	Cyclic group	
10	Examples	
11	Theorems about the subgroups	
12	The Cosets	
13	Relations between the subgroups the Cosets	
14	Normal subgroups and Quotient group	
15	Homomorphisms ,Theorems about Homomorphisms	
16	Isomorphism	
17	Theorems about Homomorphisms and Isomorphism	
18	Group chain	
19	Maximal normal subgroup	
20	Direct product and Abelian groups	
21	Theorems	
22	Direct sums	
23	Relations between Theorems
